KBIS Sneak Peek

10 VEINED QUARTZ SURFACING

Cambria has added three new designs to its existing palette that are full of contrasts in texture and color – Inverness Frost, Oakleigh and Delamere.

“Inverness Frost, Oakleigh and Delamere all have a lively intensity inspired by the beauty found in nature,” states Summer Kath, exec. v.p. of Design. “They add depth and dimension to any kitchen and bath design, creating an ultra-unique environment – whether it is for a calm, pristine setting or one that is more dark, moody and bold.”

Inverness Frost is an off-white on white design featuring subtle debossing for a textured, organic feel. Oakleigh (shown) features deep-black and gold veins juxtaposed on a white canvas for a high-contrast look. Delamere showcases a neutral design with white veining floating on a chocolate brown background.

“The designs complement many different types of materials and tones and finishes used in homes today,” continues Kath.

The new designs are available in Cambria Matte and high-gloss finishes, with up to 19 different edge profile treatments, in 2cm and 3cm thicknesses in jumbo size slabs of 132" x 65.5".

11 QUARTER-SAWN OAK CABINETS

Dura Supreme Cabinetry has added Quarter-Sawn White Oak to its wood species offering. Quarter sawn refers to the manner in which the wood is cut from the log that creates a distinctive straight grain pattern with a fleck across the grain. The wood is available for the company’s Crestwood and Bria cabinetry in most door styles and a wide palette of stained finishes. It is offered in 11 stain options. Shown is the company’s Avery door style in Quarter-Sawn White Oak with Coriander stain.

12 MINIMAL TRADITIONAL VANITY DESIGN

Kohler Co. has added nine vanity collections to its offering, designed with storage and personalization in mind, notes the firm. Each collection captures the look of freestanding furniture in various configurations to fit an array of footprints. Harken, shown, embraces Minimal Traditional design, a simplistic take on past style movements that pares back on embellishments, the company states. Available as a 36" single or 60" double vanity in Linen White or Slate Grey finishes, the pieces showcase stained wood and brass hardware. Walnut hardware, sold separately, is offered in Modern Brass, Brushed Nickel, Polished Chrome and Matte Black.

13 GENTLE SPRAY KITCHEN FAUCET

Hansgrohe’s Aquino Select kitchen faucet features three spray modes – laminar spray, needle spray and the new SatinFlow wide spray that minimizes splashing while gently washing fruits and vegetables. Users can easily switch between spray modes at the touch of a button, according to the company. The pulldown faucet features MagFit magnetic sprayhead docking for a tight fit. Aquino Select is available in Matte Black, Steel Optic and Chrome finishes.

14 RETRO RANGE

Big Chill has added the 48" Retro Range to its Retro Collection, showcasing an all-American vintage style with chrome trim and 1950s-inspired turn knobs. The counter-depth appliance includes a double oven that can fit commercial-size baking sheets, with full-extension oven rack. Eight professional-level burners offer up to 21,000 BTUs and full-motion grates. The range is available in seven standard colors – Beach Blue, Classic White, Cherry Red, Jadeite Green, Buttercup Yellow, Turquoise and Pink Lemonade – as well as two premium colors, Black and Orange. Big Chill’s custom color library of over 200 colors can also be paired with the range.
